

Remote Assistance:

This is perhaps our most valuable service! With an active internet connection and a phone call we can help you wherever you are—anywhere in the world! Via remote, we can take control of your computer and help with software—including installation and general help, virus removal, performance tweaking, printer and other peripheral installation, training/tutoring and much much more. As long as you have active internet and a phone, Imagine That! Technology Assistance is only a phone call away!

Marketing and Publishing:

The name's sake of Imagine That! We offer creative services ranging from a complete marketing campaign including Web presence, signage, print and audio/video all the way to designing and producing simple flyers for your business or event.

If you can Imagine That!

We can make it a reality!

Imagine That!

Rich Williams
TECHNOLOGY ASSISTANT

Home:

Home Entertainment:

We can help you set up and install that new home theatre or help you get the most entertainment from your existing equipment.

Telephones/Communications:

We can help you purchase and install telephone equipment and services perfectly suited to your needs—without wasting money on what you don't need! This could include: Cable DSL, 2-wire DSL, Satellite Internet, sharing a cellular air card, and more!

PC:

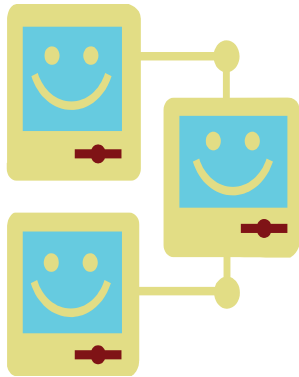

We can repair, refurbish, tweak and upgrade your home PC to it's absolute best performance. Often, that PC you thought was junk just needs some TLC! We also optimize brand new computers!

Home Networking:

We can set up your wired and/or wireless home network and even share printers for the entire family. We are expert with DSL. Add your work laptop to you home network!

Viruses/Spyware/Malware:

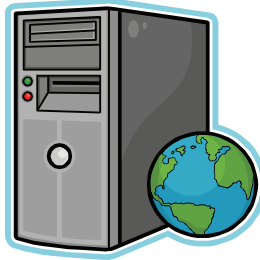

We are expert at detection and removal of mal-ware of any sort on your computer. We install software to thwart these threats in the future! These 'bad' softwares degrade performance, endanger files and endanger those you contact electronically.

Business:

Business Networking:

Share one connection to the internet! We install wired and secure wireless networks. We can enable file sharing to avoid confusion and duplication. We can network and share printers. Don't take chances with your network security!

Backups:

With over 12 years of corporate backup experience we can help assure your data is safe. Often, proper data backup can reduce insurance rates!

Software:

We can customize off-the-shelf software to your business needs. We can design and maintain database programs and/or spreadsheets to make your business easier, more efficient, and professional.

Web Design and Hosting:

We have a number of successful websites to our credit. Let us design, publish and maintain your business image on the World Wide Web.

Consulting:

We offer business consulting services. We can help you streamline your procedures and workflows while incorporating existing and new technology for maximum efficiency!

Security:

We can install multi camera surveillance systems you can monitor from anywhere in the world!

Learning:

Individual Tutoring:

We offer individual tutoring for students and adults. We offer tutoring for business and personal use.

Group Learning:

We offer group training for businesses or for social settings.

Business Training:

We can come to your business, learn and improve your software and work-flows, standardize, document and train your staff!

Remote Assistance:

We can train or tutor one-on-one or in groups via remote assistance anywhere in the world. All that's needed is an internet connection and an appointment!

A flipchart on a wooden stand. The flipchart has a white background with a blue arrow pointing upwards. The text on the flipchart is:

Basic Windows
Internet
Peripherals
(camera, mp3, etc)
Word, Excel, Access
Power Point
Publisher
Front Page
Custom Software
Many More

A green triangle with a black outline, pointing downwards. Inside the triangle, the text reads:

*Many of our
services can be
tax deductible!**

*Always consult a tax professional
